

# Jessica Eldredge

## FRONT-END DEVELOPER

Washington, DC  
+1 (202) 670-2608  
[jess@eldredge.io](mailto:jess@eldredge.io)  
[jessica-eldredge.com](http://jessica-eldredge.com)

I'm an empathetic developer who enjoys building user experiences with HTML, CSS, and JavaScript. I care deeply about people, and collaborating with my teammates to build products that will make users—and developers!—happy. As a lifelong learner, I believe in mentorship and fostering respectful environments for sharing knowledge.

## Skills

- HTML
- CSS
- Sass
- Web standards
- Git
- JavaScript
- jQuery
- User experience

### Exposure to:

Ruby, Ruby on Rails, Node.js, Vue.js, Ember.js, PHP (Wordpress)

---

## Experience

### SLATE MAGAZINE

SEP 2016–present

#### Senior web developer

- Implement a performant and accessible redesign of Slate articles.
- Develop front-end system for type scale, grid system, color, images, and layout.
- Build components in a Node- and Vue.js-based CMS as part of an ongoing content migration effort.
- Contribute to documentation and user on boarding for the new CMS.
- Collaborate with other developer to establish and document code style guides and development workflows.
- Lead a weekly front-end skill and knowledge share.

### SHOPIFY

SEP 2013–DEC 2014

#### Front-end developer

- Built the UI for the Shopify admin application, used by Shopify store owners to manage their businesses.
- Built HTML and CSS components for the Shopify UI style guide, working with designers to create a consistent visual language for the Shopify admin application.
- Built the UI for an internal app that connected Shopify employees with each other to have lunch.
- Led the effort to implement the new style guide for the redesign of the Shopify admin.

## **LIVINGSOCIAL**

MAR 2010–JUL 2013

### **Front-end developer**

- Led the UI development for the LivingSocial Merchant Center and related applications.
- Built a style guide to maintain visual consistency and code quality.
- Mentored junior developers and interns, and assisted them in their transition to full-time employment at the company.

## **MARKET HARDWARE**

APR 2009–MAR 2010

### **Web designer**

- Designed and developed websites for clients in a variety of services industries.
- Led in-house training sessions on HTML and CSS development for project managers and customer service.

## **COMPUWARE CORPORATION**

NOV 2006–APR 2009

### **Web analyst**

- Built standards-compliant web-based versions of print publications for the National Science Foundation.

---
